u3: Any difference?
u4: The <u>regular ticket is 80 dollars while price of the express ticket is 10 % higher</u>.
u5: I see, but how long does the <u>express train</u> take?
u6: Comparatively, it can save you nearly an hour and <u>the next one is leaving at 10:45</u>.
u7: Oh, we only have 15 minutes to go.

u1: Good morning, two tickets to london, please.

u2: Express train or regular one?

- u8: But that 's the time to catch the <u>train</u>. Besides, as long as I get to london earlier, I don't mind paying a little extra.  $\sqrt{9}$  u9: Yeah, you 're right. it 's already  $\frac{10:30}{10:45}$ . you only have 15 minutes to go.
- x u9: Yeah, you 're right. it 's already 10:45. you only have 15 minutes to go. x u9: Yeah, you 're right. it 's already 10:15. you only have 30 minutes to go. x u9: Yeah, you 're right. it 's already 10:30. you only have 15 minutes to take the regular train.
